Oxyless Ltd Receives FDA 510(K) Clearance for New Blood Tubing Set

LONDON, UK. February 29, 2016 – Oxyless Ltd today announced that it has received 510(k) clearance from the U.S. Food and Drug Administration (FDA) for its new Blood Tubing set intended to provide extracorporeal access to the patient's blood during hemodialysis.

Oxyless Ltd

Oxyless Ltd is a UK based company that is committed to improving dialysis patient outcomes and reducing the cost of dialysis treatments. Oxyless is building close working relationships with nephrologists worldwide to highlight the strengths of its Blood Tubing set, so that more dialysis patients can experience the benefits.
